News for Our Members

ACBL Data

Recently the ACBL released data on their membership. Did you know that twenty-five percent of ACBL members have fewer than 25 masterpoints. And half have less than 200 masterpoints.

DEPORTMENT AT THE TABLE

1. Be pleasant to Opponents and to Partner.
2. Bridge is a timed event and slow play may result in procedural penalties.
3. Try to avoid the small things, which delay the game:
 - Enter the Score in the Bridge Mate before your private score.
 - Lead first and give opponents and partner time to study the hand.
4. Do not post mortem until all the boards at your table have been played.
5. Never take another player's hand out of the board without permission.
6. Never take hands out of two different boards at the same time.
7. North should record the score and ask East to check the score.

"If you lose say little if you win say less" Unknown
